Anesthesia Consulting

Are you paying too much for Anesthesia?

Inflated anesthesia cost is caused by:

- over-staffing
- above-market compensation
- billing and collecting challenges

Sullivan implements the right reporting tools, processes and strategies to cut these costs.

SULLIVAN:

Industry insights that improve provider efficiency and financial performance

Managing anesthesia services has become so complex and demanding many local groups and hospital-employed groups are struggling to effectively operate their practices. Sullivan can help.
